

H2AK119ub Decile Distribution by Gene Group

Deciles are computed over every gene in the universe, so each decile holds one tenth of the genes

H2AK119ub (gene-body signal log2FC)

A group that follows the whole universe sits on the dashed 10% line

H2AK119ub (control gene-body signal)

A group that follows the whole universe sits on the dashed 10% line
