

Enrichment of mCH-significant genes in each chromatin state

Fisher odds ratio against all other tested genes, 95% CI

Promoter state

* marks BH q < 0.05. 0 test(s) with a non-finite odds ratio or interval are in the table only.

Gene-body state

* marks BH q < 0.05. 0 test(s) with a non-finite odds ratio or interval are in the table only.
