

Gene length against differential mCH, by chromatin state

Promoter state

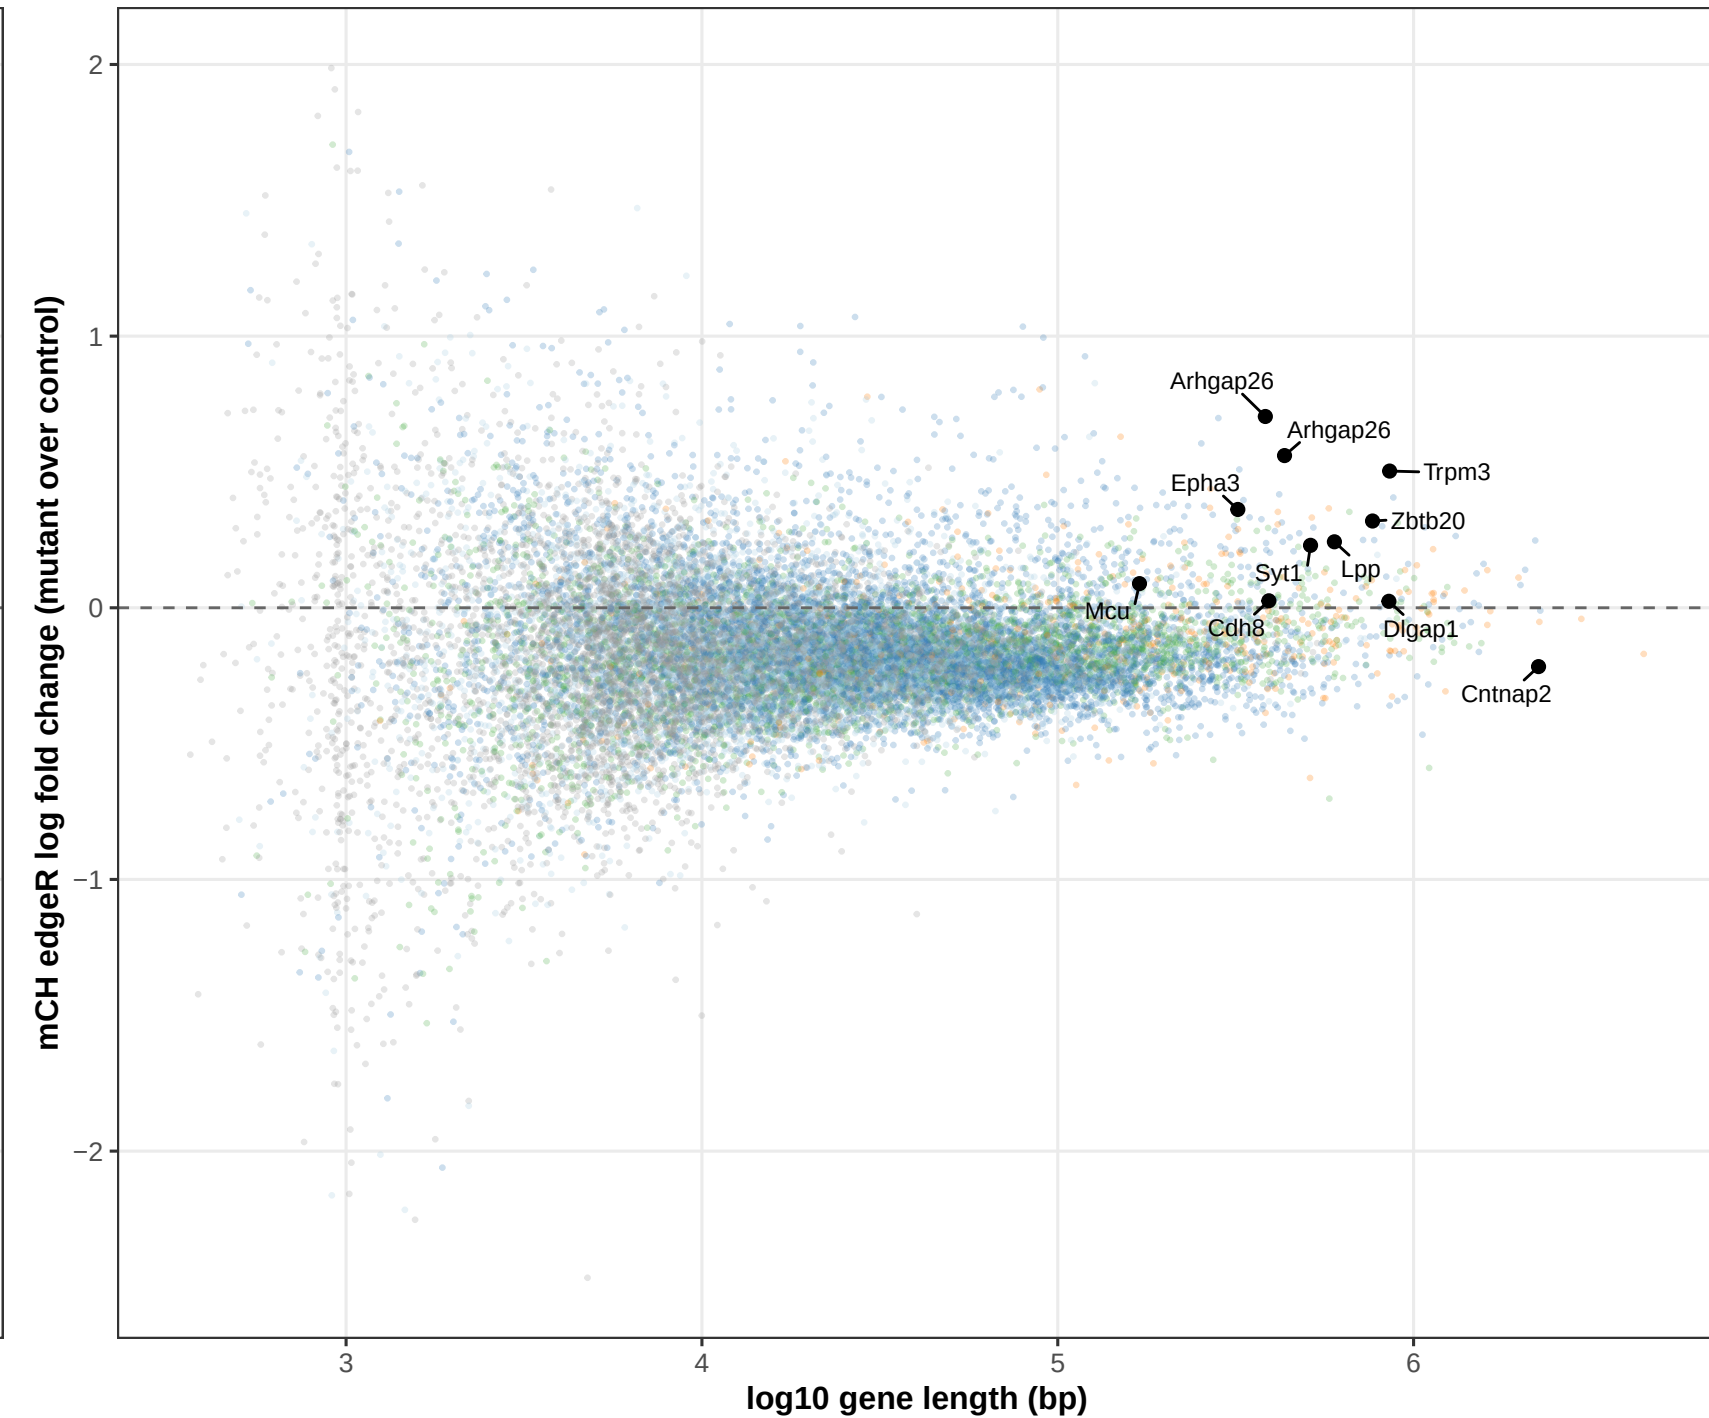

21,097 tested genes. Key genes are labelled in black.

Promoter state ● Active_Promoter ● Bivalent_Promoter ● Repressed_Promoter ● Unmarked_Promoter

Gene-body state

21,097 tested genes. Key genes are labelled in black.

Gene-body state ● Active ● Mixed ● Polycomb ● Enhancer_Marked ● Unmarked
