

Predicted Probability of a Significant MeCP2 Gain

Gene length held at the median (22,523 bp) | OR per percentage point of mCH = 15.642 (95% CI 11.432 to 21.543, $p = 3.96 \times 10^{-65}$) | $n = 17$,

Observed genes — MeCP2 gain — No MeCP2 gain
